

Principal's Newsletter

Dear Christ the King Families,

It has been nice to establish a routine with consecutive days of school. The kids have done a really nice job and have worked very hard the last few weeks. Many of the classes are taking the MAP test this week and it's nice to see the growth. Good job, students!

I have a few announcements and reminders this week:

Registration

Registration for the 2018-2019 school year will open to current families on February 1st. We are in the process of finalizing tuition rates and they should be available next week. Once again, families will register through Gradelink and it should be a very easy process this year since you all went through it last year, and most of the information is the same. More information will be available next week regarding the steps for registering and a timeline for payments.

Hot Dog Lunch

Hot dog lunch orders are due tomorrow by 9am. Lunches will begin on February 27th and run every Tuesday until the end of the year. Thank you for supporting this fundraiser for next year's 8th grade trip to Washington, D.C.

Extended Day

We sent home reminders and 30-day notices to families who have fallen behind with extended day payments. Please make sure that payments are made *prior to* receipt of the next statement.

Open House

We will have our annual Open House on Sunday, February 11th from 11:00am-1:30pm. *Please spread the word to* friends and family about how great Christ the King is and all the wonderful things we have to offer. Parents truly are our greatest form of advertising. A request went home in today's brown envelope asking for cookies and drinks for open house. We appreciate your help.

Enjoy your week!

In Christ,
Mr. Joe Carroll

Christ the King School Open House

Sunday, February 11, 2018
11:00 am to 1:30pm

As you know, on Sunday, February 11, 2018, we will open the doors of CK to share our wonderful school with the community.

We need your help!

We are asking for donations of cookies and juice to be served as refreshments during the Open House.

Items can be dropped off in the school office on Friday, February 9th, or dropped off in the Activities Building by 10:00am on Sunday.

Thank you!

Please return the below portion in the Brown Envelope **tomorrow**:

I will donate:

_____ One Dozen Cookies

_____ Two Dozen Cookies

_____ One Gallon of Juice

Name: _____

OPEN HOUSE

Sunday, February 11, 2018
11am - 1:30pm

Pre-K through grade 8

*As a Catholic community, we
nurture Christ-like leaders who
use their gifts and
talents to glorify God.*

4100 Harvest Lane Toledo, Ohio 43623

PLEASE SPREAD THE WORD!

GIRLS ON THE RUN IS BACK!

We are so excited to offer our third season of GOTR at Christ the King!

Girls on the Run is open to all girls in grades 3-5. We will have a new curriculum with new games and activities, while still focusing on the same core values and tackling important life lessons. New and returning girls are encouraged to sign up!

The registration lottery (new this year, but don't fret!) opens on Monday, February 5th. The season begins the week of February 26 and runs for 10 weeks, culminating with the most inspiring 5k event on Saturday, May 12.

Our practices will be held each Tuesday and Thursday from 3:30-5 at Christ the King.

Please check out <https://www.girlsontherunwohio.org/> for more information on this life changing program!

Further questions can be directed to 3rd grade teacher and GOTR coach, [Mrs. Lindsey Miller](#).

The Flu:

A Guide For Parents

FLU INFORMATION

What is the flu?

Influenza (the flu) is an infection of the nose, throat, and lungs caused by influenza viruses. There are many different influenza viruses that are constantly changing. Flu viruses cause illness, hospital stays and deaths in the United States each year.

The flu can be very dangerous for children. Each year about 20,000 children younger than 5 years old are hospitalized from flu complications, like pneumonia.

How serious is the flu?

Flu illness can vary from mild to severe. While the flu can be serious even in people who are otherwise healthy, it can be especially dangerous for young children and children of any age who have certain long-term health conditions, including asthma (even mild or controlled), neurological and neurodevelopmental conditions, chronic lung disease, heart disease, blood disorders, endocrine disorders (such as diabetes), kidney, liver, and metabolic disorders, and weakened immune systems due to disease or medication.

U.S. Department of
Health and Human Services
Centers for Disease
Control and Prevention

Children with these conditions and children who are receiving long-term aspirin therapy can have severe illness from the flu.

How does the flu spread?

Most experts believe that flu viruses spread mainly by droplets made when people with the flu cough, sneeze or talk. These droplets can land in the mouths or noses of people who are nearby. Less often, a person might get the flu by touching something that has flu virus on it and then touching their own mouth, eyes or nose.

What are the symptoms of the flu?

Symptoms of the flu can include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills, fatigue and sometimes vomiting and diarrhea (more common in children than adults). Some people with the flu will not have a fever.

How long can a sick person spread the flu to others?

People with the flu may be able to infect others by shedding virus from 1 day before getting sick to 5 to 7 days after. However, children and people with weakened immune systems can shed virus for longer, and may be still contagious past 5 to 7 days of flu illness, especially if they still have symptoms.

PROTECT YOUR CHILD

How can I protect my child against the flu?

To protect against the flu, the first and most important thing you can do is to get a flu vaccine for yourself and your child.

- ▶ Vaccination is recommended for everyone 6 months and older.
- ▶ It's especially important that young children and children with long term health conditions get vaccinated. (See list of conditions in "How serious is the flu?")
- ▶ Caregivers of children with health conditions or of children younger than 6 months old should get vaccinated. (Babies younger than 6 months are too young to be vaccinated themselves.)
- ▶ Another way to protect babies is to vaccinate pregnant women. Research shows that flu vaccination gives some protection to the baby both while the woman is pregnant and for up to 6 months after the baby is born.

Flu vaccine is updated annually to protect against the flu viruses that research indicates are most likely to cause illness during the upcoming flu season. Flu vaccines are made using strict safety and production measures. Over the years, millions of flu vaccines have been given in the United States with a very good safety record.

Uniform Swap

Sunday February 4th 10am-1pm

Located in the Science Lab

Gently used/recycled uniforms available
